

Heavy Duty

Best Performing. Longest Lasting. Lowest Cost Per Mile. NO COMPROMISES™

PFC pads and rotors deliver the Lowest Cost per Mile with Improved Fuel Mileage and Extended Service Life resulting in a 10% Total Brake Cost Reduction.

Zero ABS Failures and Longer Pad and Rotor Life

PFC Retrofit Rotors feature a precision corrosion resistant tone ring—a patented solution to the known problem of ABS signal loss and lasts 5 times longer than cast-in tone rings, in ABS signal and corrosion testing.

CarbonMetallic® Pads unique friction material outperforms ceramic, NAO and semi-metallic friction in both noise and pad wear testing—lasting up to 4 times longer than the competition.

CarbonMetallic®

Patented Isolated ABS Ring

GM9540P Accelerated Corrosion Testing

Competitor Loses ABS signal at 45 cycles

PFC maintains ABS signal at 210 cycles

*PFC's anti-corrosion pad technology prevents rust, peeling, corrosion, and is extremely heat resistant in even the harshest conditions. (All pad numbers ending in a .12 or .13 have anti-corrosion coating.)
